Letter of Appreciation

Dear Lalitha Marimuthu,

We want to take the time to let you know what an excellent job **Nandhi Technologies** did on the installation and commissioning of Coffee green bean processing machinery supplied for AFPDE at UVIRA, Democratic Republic of Congo in June 2017.. The machinery are installed and successfully commissioned. The performances of the machinery are good.

Your technology staff did an excellent job of training the rest of the employees on the new system, and we know that is due to your extraordinary leadership on this project.

The machinery installed has shown our cooperative that all of our processes are now faster and more efficient; enabling us to serve more customers each day, and that directly impacts company in a very positive way.

Again, thank **Nandhi Technologies** and team for such an outstanding performance.

With Deep Appreciation for a job well done.

Regards,

Mrs chantal BINWA
